

Federal Services Program

Providing Analytical Laboratory Services to Support Projects throughout the United States

Federal Services Program Summary:

- Experience supporting hundreds of defense facilities and bases
- DoD ELAP Certification
- Small Business Enterprise (541380)
- Compliant with the DoD Quality Systems Manual
- NELAP-Certified
- Full-service organic and inorganic testing
- Customized Electronic Data Deliverables (EDDs), including SEDD, ERPIMS, and ADAPT.
- 7-Time Winner of the ACIL Seal of Excellence Award

TriMatrix – DoD ELAP Certified

TriMatrix is a DoD ELAP and NELAP-certified environmental testing laboratory, meeting the DoD ELAP and NELAC standards established for testing laboratories. TriMatrix is experienced in working on projects requiring compliance with the Department of Defense's Quality Systems Manual (DoD QSM).

Defense Facilities TriMatrix Supports:

TriMatrix has analyzed thousands of samples from over 150 defense facilities and bases throughout the world to support a variety of defense programs, including BRAC, FUDS, and global military deployment efforts.

These are a few of the defense facilities TriMatrix is proud to support:

- Aberdeen Proving Grounds
- Andrews Air Force Base
- Louisville Naval Ordnance Station
- Walter Reed Army Medical Center
- Fort Meade
- MacDill Air Force Base
- Radford Army Ammunition Plant
- Dozens of military deployment locations in more than 50 countries, including Iraq and Afghanistan.

About TriMatrix

TriMatrix Laboratories, Inc., (TriMatrix), is an independent environmental testing laboratory providing analytical services to clients throughout the United States. The staff of TriMatrix places a tremendous amount of pride in assisting clients to achieve their environmental objectives. Since 1974, TriMatrix has been providing its clients with high-quality analytical data to support a wide range of environmental programs.

TriMatrix is regarded by many as one of the premier environmental laboratories in the United States with respect to technical expertise, quality, and service.
